Pursuant to Arizona Revised Statutes ("A.R.S.") § 40-250 and Arizona Administrative Code ("A.A.C.") R14-2-107, Duncan Valley Electric Cooperative, Inc. ("DVEC" or the "Cooperative"), hereby submits its Application for a Determination of the Fair Value of its Property for Ratemaking Purposes, to Fix a Just and Reasonable Return Thereon, to Approve Rates Designed to Develop Such Return, and for Related Approvals (the "Application"). In support of this Application, DVEC states as follows:

BACKGROUND

1. In Decision No. 73649 (February 6, 2013), the Arizona Corporation Commission ("Commission") adopted revisions to A.A.C. R14-2-103 and added section A.A.C. R14-2-107 ("Rule 107") which establish an alternative streamlined ratemaking application and process for nonprofit cooperatives providing electric or natural gas utility service.

2. In Decision No. 76897 (September 7, 2018) the Commission revised Rule 107 which among other things, modified timelines for reports, hearings, and decisions; reduced the number of required schedules; and allowed for any Utility Class size cooperative to utilize Rule 107.

Page 2

3. DVEC is an Arizona member-owned non-profit distribution cooperative headquartered in Duncan, Arizona. The Cooperative provides electric distribution service to approximately 2100 members/customers in Graham and Greenlee County Arizona, natural gas distribution service to approximately 700 members/customers located in Greenlee County, and electric distribution service to approximately 330 members/customers in Grant and Hidalgo Counties in New Mexico. This application and related schedules are for DVEC's gas division which is a classified as a Class D utility as defined under A.A.C. R14-2-103(A)(3)(q).

4. DVEC's 8-member Board of Directors ("Board") is elected by the Cooperative's members and oversees all aspects of the Cooperative's operations. At a regular meeting of the Board held on April 20, 2020, the Board approved the filing of this Application.

5. On June 11, 2020, DVEC submitted to the Commission's Utilities Division Staff ("Staff") a Request for Pre-Filing Eligibility Review in accordance with Rule 107(E) which included the required items in subsection (G)(1) through (6).

6. On July 9, 2020, DVEC met with Staff as required by Rule 107(E)(3) to discuss the Cooperative's eligibility under Rule 107(B), and the proposed form of customer notice. At that meeting, Staff advised DVEC that it has met the eligibility requirements of Rule 107(B) for filing a streamlined rate case. At that meeting, Staff also approved the form of customer notice to be mailed to customers as required by Rule 107(E) and (F).

7. After meeting with Staff, DVEC filed a Request for Docket Number and Notice of Filing Proposed form of Customer Notice on July 9, 2020, in accordance with Rule 107(E)(4).

8. On July 15, 2020, DVEC caused a copy of the approved customer notice to be mailed via First Class Mail to all customers of record as of the date of mailing. On July 15, 2020, DVEC docketed a Notice of Mailing Customer Notice certifying that the approved customer notice was mailed via First Class Mail on July 15, 2020 to each customer of the Cooperative as required by Rule 107(F)(2), (G)(8) and (G)(9). The customer notice sets a deadline of August 14, 2020 for customers of DVEC to file intervention requests and/or objections to the Application.

REQUEST FOR RATE INCREASE

9. DVEC's test year ("Test Year") is the twelve months ending December 31, 2019. DVEC seeks authority from the Commission to increase its annual gross revenue requirement by \$25,634, from Test Year revenues of \$529,323 to \$554,958, an increase of 4.8%. The \$25,634 increase represents an increase in base revenue¹ of 6%, increasing base revenue from \$427,226 to \$452,860. The rate increase would yield an Operating Loss of (\$24,637). DVEC's request, if granted, will result in a -0.77% rate of return on Fair Value Rate Base ("FVRB").

10. The Application shows that a residential customer with monthly natural gas consumption of 59 therms (average usage) in the winter will see an increase in his or her bill of \$0.36 per month (\$67.59 to \$67.95), or 0.53%, while a residential customer with a monthly natural gas consumption of 14 therms (average usage) in the summer will see an increase in his/her bill of \$4.71 per month (\$28.71 to \$33.42), or 16.41%.

11. The rate increase is necessary to recover operating costs. The rate increase along with a concurrent rate increase requested by DVEC's Electric Division will allow DVEC to maintain the financial integrity of the Cooperative.

ELIGIBILITY CRITERIA

12. The eligibility requirements for filing a streamlined rate case are contained in Rule107(B). As set forth below, DVEC meets all of the eligibility requirements of the rule.

a. DVEC is a not-for-profit rural electric cooperative corporation organized and existing under Arizona law and meets the definition of a cooperative under Rule 107(A)(5).

b. The last full permanent rate case decision for DVEC's Gas Division (filed under Duncan Rural Services Corporation) was issued in Decision No. 68599 issued March 23, 2006, which is within the 20-year period preceding the filing of this Application as required in Rule 107(B)(1).

¹A.A.C. R14-2-107(A)(2) definition of "Base Revenue" means the revenue generated by permanent rates and charges, excluding: (a) Revenue generated through adjustor mechanisms, and (b) Revenue generated through miscellaneous service charges.

Page 4

c. DVEC Gas Division's current rates were established in Decision No. 76630 issued March 29, 2018. DVEC's previous filing was greater than 12 months prior to this filing as per Rule 107(B)(2).

d. DVEC is required by law and/or contract to make a certified annual financial and statistical report to its lender, the National Rural Utilities Cooperative Finance Corporation ("CFC"). CFC is a non-profit lender that specializes in the utility industry so the Cooperative meets the eligibility requirement of Rule 107(B)(3). A copy of the Cooperative's December 2019 financial and statistical report to CFC is attached as Attachment 1.

e. DVEC's Test Year of January 2019 to December 2019 in this application meets the definition of a "test year" in Rule 107(A)(14), and the eligibility requirement of Rule 107(B)(4) that requires the test year end within in 12 months before the filing of the application.

f. In compliance with Rule 107(B)(5), attached as Attachment 2 are DVEC's audited financial statements for the period ending December 31, 2019.

g. DVEC is proposing an increase in actual Test Year base revenue of 6% as permitted under Rule 107(B)(6).

h. DVEC's Application uses original cost rate base as its fair value rate base per Rule 107(B)(7).

i. DVEC's Application does not propose any of the items listed under subsection (D) nor does it propose adoption of a new hook-up fee or another new type of fee per Rule 107(B)(8).

j. DVEC's Application does not propose a "rate structure change" as proscribed in Rule 107(B9)(9) and defined in (A)(13).

k. DVEC's Application is not seek financing approval or consolidation with another docket per Rule 107(B)(10).

1.The customer notice provided by DVEC conformed to the requirements of Rule107(F) and was approved by Staff on July 9, 2020, meeting the eligibility requirement of Rule107(B)(11).

m. DVEC is a distribution cooperative. Pursuant to Rule 107(B)(12), objections to the Application timely submitted by the Cooperative's customers may represent no more than 5% of

all customer accounts or no more than 1,000 customer accounts, whichever is fewer. For purposes 2 of determining eligibility under this rule, the total number of DVEC customer accounts as of 3 December 31, 2019 was 712. Five percent of the customer accounts is 35, so the applicable objection threshold for DVEC in this rate case is 35.

The eligibility requirement in Rule 107(B)(13) applies to generation cooperatives n. and does not apply to DVEC.

FILING REQUIREMENTS

13. The filing requirements for a streamlined rate case are contained in Rule 107(G). As set forth below, DVEC meets all of the eligibility requirements of the rule.

The name of the Applicant is Duncan Valley Electric Cooperative, Inc. a.

b. The Test Year is the 12 months year ended December 31, 2019.

c. DVEC waives the use of reconstruction cost new rate base to determine its fair value rate base as required by Rule 107(G)(2).

d. In accordance with Rule 107(G)(3), a copy of the DVEC's December 2019 financial and statistical report to CFC is attached as Attachment 1.

e. In accordance with Rule 107(G)(4), DVEC's audited financial statements for the period ending December 31, 2019, are attached as Attachment 2.

f. In accordance with Rule 107(G)(5) and (6), attached as Attachment 3 is the information listed in the table in A.A.C. R14-2-103(B)(l) for Schedules A-1, B-2, C-1 and C-1.1, E-5, E-7, E-9, H-1, H-2, H-3 and H-3.1, H-4.0 through H-4.2, and H-5.0 through H-5.2. For the filing Schedule C-2 is not applicable.

DVEC is not requesting a change in depreciation rates. Schedules B-3 and B-4 are g. not applicable per Rule 107(G)(7).

h. Attached as Attachment 4 is a copy of the notice that was mailed via First Class Mail to each customer of DVEC as of the date of mailing pursuant to Rule 107(G)(8).

26 i. A copy of the Affidavit of Mailing Customer Notice was previously docketed with 27 the Commission on July 15, 2020.

28

14. DVEC requests that this Application be approved without a hearing.

Independent Auditor's Report

Board of Directors Duncan Valley Electric Cooperative, Inc. and Subsidiary Duncan, Arizona

We have audited the accompanying consolidated financial statements of Duncan Valley Electric Cooperative, Inc. and Subsidiary (the Cooperative), which comprise the consolidated balance sheets as of December 31, 2019 and 2018, and the related consolidated statements of income, patronage capital, and other comprehensive income, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

-1-

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Duncan Valley Electric Cooperative, Inc. and Subsidiary as of December 31, 2019 and 2018, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of a Matter

Change in Accounting Principle

As discussed in Note 22 to the financial statements, the Cooperative adopted new accounting guidance, ASU 2014-09, *Revenue from Contracts with Customers, Topic 606*, which provides a new framework for the recognition of revenue. The Cooperative elected to retrospectively change its method of revenue recognition by recognizing revenue from power and gas delivered but not yet billed. Our opinion is not modified with respect to that matter.

Other Matters

Consolidating and Accompanying Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The consolidating schedules, schedule of electric plant, accumulated provision for depreciation, other property and investments, patronage capital, administrative and general expenses, five year comparative data, and divisional income statement are presented for purposes of additional analysis and are not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements the underlying accounting and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

DUNCAN VALLEY ELECTRIC COOPERATIVE, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations

Duncan Valley Electric Cooperative, Inc. (the Cooperative) is a non-profit company organized to provide electric service at the retail level to primarily residential and commercial accounts in a designated service area. Power delivered at retail is purchased wholesale from Arizona's G&T Cooperatives, of which the Cooperative is a member. Any revenues earned in excess of costs incurred are allocated to members of the Cooperative and are reflected as patronage capital equity in the balance sheet.

Duncan Rural Services Corporation (DRSC) is a gas system serving the town of Duncan, Arizona, and surrounding area. DRSC is a division of the Cooperative.

During 1997, the Cooperative formed a subsidiary company, AZNEX Cooperative Services, Inc. The Subsidiary was formed to provide communication services. The Subsidiary has authorized 10,000,000 shares of no par value common stock of which 50,000 has been issued to the Cooperative. The Subsidiary began operations in January, 1998. In June 2008, AZNEX sold all of its plant to a third party and ceased operating as an internet company and now earns commissions on a percentage of revenue earned by the acquiring company. During 2018, the contract for operations that AZNEX had with TWN was not renewed causing the operations of this subsidiary to decline substantially. During 2019, the operations of AZNEX were discontinued and the company was dissolved.

Principles of Consolidation

The consolidated financial statements include the accounts of the Cooperative and its whollyowned subsidiary AZNEX Cooperative Services, Inc. All material intercompany transactions have been eliminated.

System of Accounts

The accounting records of the Cooperative are maintained in accordance with the Uniform System of Accounts as prescribed by the Federal Energy Regulatory Commission for Class A and B electric utilities modified for electric borrowers of the National Rural Utilities Cooperative Finance Corporation (CFC).

Plant in Service, Maintenance, and Depreciation

Plant is stated at the original cost of construction which includes the cost of contracted services, direct labor, materials and overhead items. Contributions from others toward the construction of electric plant are credited to the applicable plant accounts.

When property which represents a retirement unit is replaced or removed, the average cost of such property as determined from the continuing property records is credited to electric plant and such cost, together with cost of removal less salvage, is charged to the accumulated provision for depreciation.

-7-

DUNCAN VALLEY ELECTRIC COOPERATIVE, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Maintenance and repairs, including the renewal of minor items of plant not comprising a retirement unit, are charged to the appropriate maintenance accounts, except that repairs of transportation and service equipment are charged to clearing accounts and redistributed to operating expense and other accounts.

Inventories

Materials and supplies inventories are valued at average unit cost.

Revenues from Contracts with Customers

Substantially all operating revenues and customer accounts receivables are derived from contracts with customers. Performance obligations related to the sale of energy are satisfied as energy is delivered to customers. The Cooperative recognizes revenue that corresponds to the price of the energy delivered to the customer. The measurement of energy sales to customers is generally based on the reading of their meters, which occurs on a systematic basis throughout the month. At the end of each year, amounts of energy delivered to customers since the date of the last meter reading are estimated, and the corresponding unbilled revenue is recognized. The Cooperative has calculated that its unbilled revenue for delivered power usage which has not been billed to customers at December 31, 2019 and 2018 amounted to \$73,851 and \$114,491, respectively. The Cooperative has also calculated that its unbilled revenue for delivered gas usage which has not been billed to customers at December 31, 2019 and 2018 amounted to \$25,638 and \$29,605, respectively.

The Cooperative does not recognize a separate financing component of its collections from customers as contract terms are short-term in nature. The Cooperative presents its revenues net of any excise or sales taxes or fees.

The Cooperative's operating revenues are under the jurisdiction of the Arizona Corporation Commission and the New Mexico Public Regulatory Commission.

The Cooperative's tariffs for electric and gas service include a power cost and gas cost recovery factor under which rates charged to customers are adjusted to reflect changes in the cost of power and gas. In order to match power costs and gas costs and related revenues, power cost and gas cost billed in advance is recorded as advance billings to consumers, and power cost and gas cost to be billed in subsequent periods is recognized as accrued unbilled revenue. Annual changes in these amounts appear as over and under billed power cost and gas cost revenue on the consolidated statement of income, patronage capital, and other comprehensive income.

Receivables and Bad Debts

The Cooperative records a receivable for power delivered monthly. Periodically, the Board of Directors reviews accounts over 90 days and writes them off. The provision for bad debts is based on historical write-offs and expectations of future bad debts.

Patronage Capital Certificates

Patronage capital allocations received from other associated cooperatives is recorded at the stated amount of the certificates. Due to the timing of actual allocation notices from Arizona's G and T Cooperatives, the Cooperative records final allocations from the previous year as current year income.

-8-

DUNCAN VALLEY ELECTRIC COOPERATIVE, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The G and T patronage income recognized for the years 2019 and 2018 is as follows:

		December 31,				
		2019	2018			
2018 Final Allocation	\$	125,089	\$			
2017 Final Allocation	-			115,966		
	\$	125,089	\$	115,966		

Cash Equivalents

For purposes of the statement of cash flows, the Cooperative considers cash – general to be cash and cash equivalents.

Group Concentration of Credit Risk

The Cooperative's headquarters facility is located in Duncan, Arizona. The service area includes members in Greenlee County, Arizona, and Hidalgo and Grant Counties, New Mexico. The Cooperative records a receivable for electric and gas revenues as billed on a monthly basis. The Cooperative requires a deposit from consumers upon connection. The deposit accrues interest annually. Deposits are applied to any unpaid bills and fees in the event of default. Deposits on hand totaled \$71,745 and \$73,945 at December 31, 2019 and 2018, respectively. At times during the year, cash balances exceeded FDIC insurance limits.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. Assets Pledged

Currently, the Cooperative has capital lease assets whose title remains with the lessor throughout the lease term. In addition, the Cooperative has amounts owing National Rural Utilities Cooperative Finance Corporation (CFC) though no assets are pledged against that debt.

-9-

DUNCAN VALLEY ELECTRIC COOPERATIVE, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

3. Plant in Service

The major classes of electric plant are as follows:

	December 31,				
		2019		2018	
Duncan Valley Electric Cooperative, Inc.					
Intangible Plant	\$	176	\$	176	
Distribution Plant		7,958,522		7,823,700	
General Plant		2,014,352		1,836,559	
Total Electric Plant in Service	\$	9,973,050	\$	9,660,435	
Gas Utility Plant	\$	1,999,671	\$	1,913,990	
Gas General Plant		55,828		53,169	
Total Gas Plant in Service	\$	2,055,499	\$	1,967,159	
Construction Work in Progress	\$	218,667	\$	70,029	
Total Utility Plant	\$	12,247,216	\$	11,697,623	

Provision has been made for depreciation of distribution plant at the straight-line composite rates as follows, for both 2019 and 2018:

Station Equipment	3.20%
Poles, Towers, and Fixtures	4.00%
Overhead Conductors and Devices	2.80%
Underground Conduit	2.30%
Underground Conductors and Devices	2.90%
Line Transformers	3.10%
Services	3.60%
Meters	3.40%
Street Lighting and Signal Systems	4.30%
Gas Utility Plant	2.80% - 9.60%

General plant depreciation rates have been applied on a straight-line basis and are as follows:

Structures	2.85% - 10.00%
Furniture and Equipment	16.67% - 25.00%
Transportation Equipment	6.36% - 10.00%
Stores Equipment	10.00% - 12.50%
Shop and Laboratory Equipment	8.34% - 20.00%
Communications Equipment	10.00% - 20.00%
Miscellaneous Equipment	20.00%

Depreciation for the years ended December 31, 2019 and 2018 was \$395,993 and \$390,351, respectively, of which \$341,244 and \$340,421 was charged to depreciation expense, and \$54,749 and \$49,930 allocated to other accounts.

-10-

DUNCAN VALLEY ELECTRIC COOPERATIVE, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

4. Non-Utility Property

Non-utility property includes land (seven acres, cost \$22,728) not presently being used in the utility operations.

5. Investments in Associated Organizations

Investments in associated organizations consisted of the following:

	December 31,			
		2019		2018
CFC				
Membership	\$	1,000	\$	1,000
Capital Term Certificates		160,647		160,647

Federated Insurance				
Patronage Capital		42,178		39,230
Other		22,700		17,791
	\$	2,942,539	\$	2,828,736

Patronage capital certificates are recorded at the stated amount of the certificates. All other investments are recorded at cost.

6. Notes Receivable

Notes receivable consist of the following:

	December 31,				
	2019			2018	
Member Loans - Energy Efficiency Applications Reserve for Uncollectible Loans	\$	20,382 (4,169)	\$	27,746 (4,169)	
	\$	16,213	\$	23,577	

During 1990, the Cooperative initiated a program to finance the cost and installation of heat pumps for members. The loans are to be repaid monthly over five years with an interest rate of 5.50%.

-11-

DUNCAN VALLEY ELECTRIC COOPERATIVE, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

7. Temporary Cash Investments

	December 31,				
		2019	2018		
Homestead Funds (at Fair Market Value) Judy White Memorial Scholarship Fund (at Fair	\$	1,466,894	\$	1,148,902	
Market Value)		151,842		118,911	
Total Investments	\$	1,618,736	\$	1,267,813	

The Cooperative's investment in available-for-sale securities is shown at fair market value. Gains and losses on securities classified as available-for-sale are now recognized through the income statement for the Cooperative's investments in equity securities and the gains or losses for equity securities for the scholarship fund are now recorded as an offset to the scholarship fund deferred credit account.

See Note 21 for the recently adopted accounting pronouncement on Financial Instruments.

The following available-for-sale securities were held as of December 31, 2019:

	-	Fair Value	_	Cost	_	Unrealized Gain
Homestead Funds - Stock Funds	\$	1,618,736	\$	1,152,786	\$_	465,950
	\$	1,618,736	\$	1,152,786	\$_	465,950

Fair Value Hierarchy

The Fair Value Measurements Topic of the FASB Accounting Standards Codification establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 - Inputs are quoted prices in active markets for identical assets.

<u>Level 2</u> - Inputs include available indirect information, such as quoted prices for similar assets in active markets, or quoted prices for identical or similar assets in markets that are not active.

<u>Level 3</u> - Inputs are subjective and generally based on the entity's own assumptions on how knowledgeable parties would price assets and are developed using the best information available in the circumstances.

The securities above are considered Level 1.

DUNCAN VALLEY ELECTRIC COOPERATIVE, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

8. Materials and Supplies

Materials and supplies consist of:

	December 31,				
	2019			2018	
Duncan Valley Electric Cooperative, Inc.					
Electric Construction Materials and Supplies	\$	151,491	\$	150,138	
Gas Utility Construction Material and Supplies		20,645		21,953	
Total Cooperative Inventory	\$	172,136	\$	172,091	

9. Deferred Charges

Deferred charges consist of the following:

	December 31,			
	2019			2018
Right of Way	\$	41,406	\$	49,291
Deferred Retirement Expense				90,911
NRECA Retirement Funding Prepayment		154,407		201,917
Other		18,205		11,395
	\$	214,018	\$	353,514

The Cooperative prepaid premiums into the NRECA retirement plan during the year ended December 31, 2017 to receive reduced annual contribution rates. The related deferred charge is being recognized over the estimated benefit period of the prepayment, which was ten years.

During 2018, the Cooperative approved an early retirement payout to one employee. This deferral was fully amortized in 2019.

10. Income Taxes

The Cooperative is exempt from federal income taxes under Section 501(c)(12) of the Internal Revenue Code as long as 85% of its revenue is from members for the sole purpose of meeting losses and expenses. For the year ended December 31, 2019, the Cooperative qualified for exemption.

AZNEX Cooperative Services, Inc. is a C-corporation subject to federal income taxes. This corporation files a federal income tax return. Current taxes and deferred taxes are allocated to each corporation on a standalone basis.

-13-

DUNCAN VALLEY ELECTRIC COOPERATIVE, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The Cooperative and AZNEX follow the asset and liability method for recording income taxes as provided for by accounting principles generally accepted in the United States of America. The objective of the asset and liability method is to establish deferred tax assets and liabilities for the temporary differences between the financial reporting basis and the tax basis of the Cooperative's and AZNEX's assets and liabilities at enacted tax rates expected to be in effect when such amounts are realized and settled. As changes in the tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes.

Deferred income taxes result from transactions which enter into the determination of taxable income in different periods than recorded for financial reporting purposes. Currently there are no timing differences between book income and taxable income and as such no deferred taxes are recognized.

The components of the provision for federal and state tax expense are as follows:

	December 31,							
		2019		2018				
<u>Federal</u>								
Federal Income Tax Expense	\$	1,372	\$	3,082				
<u>State</u>								
State Income Tax Expense		71		1,043				
Total Provision for Federal and State Income Taxes	\$	1,443	\$	4,125				

The Cooperative and Subsidiary apply the "uncertain tax positions" provisions of accounting principles generally accepted in the United States of America. The primary tax position of the Cooperative is its filing status as a tax exempt entity. The Cooperative and Subsidiary determined that it is more likely than not that their tax positions will be sustained upon examination by the Internal Revenue Service (IRS), or other State taxing authority, and that all tax benefits are likely to be realized upon settlement with taxing authorities.

The Cooperative and its subsidiary file income tax returns in the U.S. federal jurisdiction, and the state of Arizona. The Cooperative and subsidiary are no longer subject to U.S. federal and state income tax examinations by federal taxing authorities for years before 2016, and state taxing authorities for years before 2015.

The Cooperative and Subsidiary recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in operating expenses. There were no penalties or interest recognized during the years ended December 31, 2019 and 2018.

11. Return of Capital

No patronage capital has been retired in 2019 or 2018.

-14-

DUNCAN VALLEY ELECTRIC COOPERATIVE, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

12. Patronage Capital

Patronage capital consists of the following:

		December 31,					
	_	2019		2019		2018	
Assigned Assignable	\$	11,497,777	\$	11,497,777 1,043,574			
Less: Retired	\$	11,497,777 3,962,224	\$	12,541,351 3,962,224			
Balance	\$	7,535,553	\$	8,579,127			

13. Other Equities (Deficits)

Other equities (deficits) consists of the following:

	December 31,					
		2019		2018		
Retired Capital Credits - Gain	\$	95,093	\$	95,093

Other Margins - Unbilled Revenue	_	73,851		25,638		99,489			
	\$	1,842,290	\$	(508,000)	\$	1,334,290			

14. Long-Term Debt

Capital Lease Obligations

The Cooperative leases equipment through capital lease financing agreements. The economic substance of the capital leases is that the Cooperative is financing the acquisition of the assets through the lease over their terms, and accordingly, they are reflected in the Cooperative's plant assets and liabilities.

-15-DUNCAN VALLEY ELECTRIC COOPERATIVE, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The following is an analysis of the book value of the leased assets included in electric plant at December 31, 2019 and 2018.

	_	December 31,				
	_	2019	_	2018		
Cost Accumulated Depreciation	\$	518,523 (152,707)	\$	365,147 (119,971)		
	\$_	365,816	\$_	245,176		

The capital lease obligations have an interest rate of 5.465% and 6.487% will mature in 2022 and 2024.

The remaining lease obligations call for payments totaling \$230,223 over the remaining term of the leases.

Below is a schedule by years of the future minimum payments required under the leases, with their present value at December 31, 2019 and 2018.

	December 31,				
	2019		2018		
2019 2020 2021 2022 2023 2024	\$ 65,297 65,297 45,786 35,895 17,948	\$	94,295 29,402 29,402 9,801		
Total Minimum Lease Payments Amount Representing Interest	\$ 230,223 (28,422)	\$	162,900 (10,322)		
Present Value of Lease Payments	\$ 201,801	\$	152,578		
Current Maturities Noncurrent Maturities	\$ 54,338 147,463	\$	88,305 64,273		
	\$ 201,801	\$	152,578		

CFC Notes Payable

During 2013, the Cooperative borrowed \$475,099 from CFC for the purpose of funding the NRECA Accelerated Funding Payment for the Retirement and Security Plan. These funds were originally borrowed using the Cooperative's line of credit until permanent financing could be established. During 2014, a note was issued with a principal balance of \$431,000 to be paid over 11 years at 2.950%. As of December 31, 2019, the remaining unpaid principal was \$217,432.

-16-DUNCAN VALLEY ELECTRIC COOPERATIVE, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Maturities for the next five years are as follows:

2020	\$ 40,968
2021	42,190
2022	43,449
2023	44,745
2024	46,080

15. Short-Term Borrowing

The Cooperative has a \$600,000 line of credit for short-term financing with CFC at an interest rate of 3.25% which expires on September 17, 2020. At December 31, 2019 and 2018, the Cooperative had \$550,000 and \$350,000 outstanding.

16. Deferred Credits

	 December 31,					
	 2019	_	2018			
Judy White Memorial Scholarship Fund	\$ 135,251	\$	88,871			
Renewable Energy Standards Tariff - NM and AZ	116,267		130,332			
Other	 23,342	_	16,639			
	\$ 274,860	\$	235,842			

17. Litigation, Commitments, and Contingencies

There is no pending litigation which would materially affect the financial position of the Cooperative.

The Cooperative is committed to purchase its electric power requirements from Arizona's G and T Cooperatives through the year 2035.

18. Pension Benefits

Narrative Description

The NRECA Retirement Security Plan (the RS Plan) is a defined benefit pension plan qualified under Section 401 and tax-exempt under Section 501(a) of the Internal Revenue Code. It is a multiemployer plan under the accounting standards. The RS Plan sponsor's Employer Identification Number is 53-0116145 and the RS Plan Number is 333.

A unique characteristic of a multiemployer plan compared to a single employer plan is that all plan assets are available to pay benefits of any plan participant. Separate asset accounts are not maintained for participating employers. This means that assets contributed by one employer may be used to provide benefits to employees of other participating employers.

-17-

DUNCAN VALLEY ELECTRIC COOPERATIVE, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Plan Information

The Cooperative contributions to the RS Plan in 2019 and in 2018 represented less than five percent of the total contributions made to the RS Plan by all participating employers. The Cooperative made contributions to the RS Plan of \$167,404 in 2019 and \$160,862 in 2018. There have been no significant changes that affect the comparability of 2017 and 2016 contributions. Pension expense for the years ended December 31, 2019 and 2018, including amortization of R&S prepayment, was \$214,914 and \$208,372, respectively.

In the RS Plan, a "zone status" determination is not required, and therefore not determined, under the Pension Protection Act (PPA) of 2006. In addition, the accumulated benefit obligations and plan assets are not determined or allocated separately by individual employer. In total, the RS Plan was over 80% funded on January 1, 2019 and 2018 based on the PPA funding target and PPA actuarial value of assets on those dates.

Because the provisions of the PPA do not apply to the RS Plan, funding improvement plans and surcharges are not applicable. Future contribution requirements are determined each year as part of the actuarial valuation of the plan and may change as a result of plan experience.

Defined Contribution Plan

The employees also participate in a 401(k) plan, a defined contribution plan provided through National Rural Electric Cooperative Association. The Cooperative makes monthly contributions to the plan. The cost for the Cooperative was \$42,200 and \$40,515 for the years ended December 31, 2019 and 2018, respectively.

19. Related Party Transactions

The Cooperative is represented on the Board of Directors of Arizona's G and T Cooperatives and purchases all of its electric power from them. Margins earned by Arizona's G and T Cooperatives have been allocated to the Cooperative and are included under Investments in Associated Organizations.

20. Subsequent Events

The Cooperative has evaluated subsequent events through April 6, 2020, the date which the financial statements were available to be issued.

In December 2019, an outbreak of a novel strain of coronavirus (COVID-19) originated in Wuhan, China and has since spread to other countries, including the U.S. On March 11, 2020, the World Health Organization characterized COVID-19 as a pandemic. In addition, multiple jurisdictions in the U.S. have declared states of emergency. It is anticipated that these impacts will continue for some time. There has been no material financial impact to the Cooperative's operations to date. Future potential impacts include disruptions or restrictions on our employees' ability to work, reduced consumer demand for energy, and customers' ability to pay their monthly bills in a timely fashion. Changes to our operating environment may also be impacted. These changes may impact operating costs and net income. The future effects of these issues are unknown.

-18-

DUNCAN VALLEY ELECTRIC COOPERATIVE, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

21. Recently Adopted and Recently Issued Accounting Pronouncements

Recently Adopted

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers, Topic 606*, which provides a new framework for the recognition of revenue. The Cooperative implemented the guidance on January 1, 2019. Results and disclosures for reporting periods beginning after December 31, 2018 are presented in accordance with Topic 606. The implementation of this new accounting standard increased disclosures regarding revenues related to contracts with customers, which are disclosed under Electric Revenues from Contracts with Customers in Note 1.

In January 2016, the FASB issued Accounting Standards update 2016-01, *Financial Instruments*. The new standard requires equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income. The Cooperative implemented the guidance on January 1, 2019.

Recently Issued

In February 2016, the FASB issued Accounting Standards Update 2016-02, *Leases*. The new standard establishes a right-of-use (ROU) model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. A modified retrospective transition approach is required for lessees for capital and operating leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. The new standard is effective for nonpublic entities for fiscal years beginning after December 15, 2019. The Cooperative is evaluating the impact of the new standard on the financial statements.

22. Change in Accounting Principle - Prior Period Adjustment

With the implementation of the new revenue recognition standard disclosed in Note 21, the Cooperative started recording unbilled revenue for delivered power and gas usage which has not been billed to customers. The recording of unbilled revenue increased the December 31, 2018 beginning balance of Other Equities (Deficit) by \$104,641 and increased Operating Revenues by \$39,455 for the year ended December 31, 2018.

LETTER TO BOARD OF DIRECTORS REGARDING POLICIES CONCERNING AUDITS OF CFC BORROWERS

Board of Directors Duncan Valley Electric Cooperative, Inc. Duncan, Arizona

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of Duncan Valley Electric Cooperative, Inc. (the Cooperative), for the year ended December 31, 2019, and have issued our report thereon dated April 6, 2020.

In connection with our audits, nothing came to our attention that caused us to believe that the Cooperative failed to comply with the terms of Article V of the National Rural Utilities Finance Corporation Loan Agreement insofar as they relate to accounting matters. However, our audits were not directed primarily toward obtaining knowledge of such noncompliance.

The Cooperative's accounting and reporting procedures were considered adequate in all material respects. The records were maintained in accordance with the prescribed Uniform System of Accounts. The procedures used in accounting for material, transportation, labor, and overhead costs provide a fair distribution of these costs to construction, retirement, and maintenance or other expense accounts.

This report is intended solely for the information and use of the Board of Directors and management of Duncan Valley Electric Cooperative, Inc. and the National Rural Utilities Cooperative Finance Corporation and is not intended to be and should not be used by anyone other than these specified parties.

NOTES TO FINANCIAL STATEMENTS Schedule E-9

Accounting Method

The accounting records of the Cooperative are maintained in accordance with the Uniform System of Accounts as prescribed by the Federal Energy Regulatory Commission for natural gas utilities.

Depreciation Lives and Methods Employed by Major Classifications of Utility Property

Provision for depreciation of distribution plant at straight-line composite rates as follows:

Distribution Mains	2.80%
Distribution Mains - Anodes	9.60%
City Gates	2.80%
Services	4.10%
Meters & Regulators	2.60%

Provision for depreciation of general plant rates on a straight-line basis as follows:

Stores Equipment			9.60%
Tools, Shop & Garage Equipment	14.00%	to	20.00%
Laboratory Equipment	8.00%	to	20.00%

Income Tax Treatment

The Cooperative is exempt from federal income taxes under Section 501(c)(12) of the Internal Revenue Code as long as 85% of its revenue is from members for the sole purpose of meeting losses and expenses. For the year ended December 31, 2019, the Cooperative qualified for exemption.

The Cooperative and Subsidiary have adopted the "uncertain tax positions" provisions of accounting principles generally accepted in the United States of America. The primary tax position of the Cooperative is its' filing status as a tax exempt entity. The Cooperative and Subsidiary determined that it is more likely than not that their tax positions will be sustained upon examination by The Internal Revenue Service (IRS), or other State taxing authority, and that all tax benefits are likely to be realized upon settlement with taxing authorities.

FASB ASU No. 2014-09, Topic 606

In 2019, the Cooperative changed accounting polices related to its framework for the recognition of revenue by adopting FASB ASU No. 2014-09, Revenue from Contracts with Customers, Topic 606. Results for reporting periods beginning December 1, 2018 are presented in accordance with Topic 606. The Cooperative changed its method of revenue recognition to accrue for gas delivered but not yet billed.

Interest Rate Used to Charge Interest During Construction, If Applicable

The Cooperative does not charge interest during construction.

IMPORTANT RATE INCREASE NOTICE - PLEASE READ

Duncan Valley Electric Cooperative-Gas Division ("DVEC" or "Cooperative") has notified the Arizona Corporation Commission ("Commission") that it intends to file a streamlined application ("Streamlined Application") on or about July 20, 2020, to increase its rates and charges pursuant to A.R.S. § 40-250 and A.A.C. R14-2-107 ("Rule 107"), the Commission's rule authorizing the filing of streamlined rate applications for electric and natural gas cooperatives. DVEC is requesting an overall rate increase of \$25,634 or 6% over actual test year total Arizona base revenue (this is the maximum allowed per Rule 107). DVEC-Gas Division's test year for this rate filing is year ending December 31, 2019. DVEC-Gas Division states that the rate increase is necessary to recover operating costs. The last general rate increase for DVEC-Gas Division was effective April 1, 2018.

A residential customer with monthly natural gas consumption of 59 therms (average usage) in the winter will see an increase in his or her bill of \$0.36 per month (\$67.59 to \$67.95), or 0.53%, while a residential customer with a monthly natural gas consumption of 14 therms (average usage) in the summer will see an increase in his/her bill of \$4.71 per month (\$28.71 to \$33.42), or 16.41%.

The proposed percentage increases by rate class over existing base rates are:

Small Meter 250 CFH* and below	6.04%
Medium Meter Above 250 CFH to 425 CFH	9.00%
Large Meter Above 425 CFH	-3.55%
*CFH – Cubic Feet per Hour	

Processing the Streamlined Application

Rule 107 provides streamlined procedures that should reduce rate case expenses for processing rate applications of electric and natural gas cooperatives where (i) the requested increase in total base revenue does not exceed 6% of the actual test year total base revenue; (ii) the change in base revenue generated by any one rate class is no greater than 150% of the overall base revenue increase; (iii) there is no change greater than 35% in the customer charge within a rate schedule for residential customers; and (iv) there is no change in the rate blocks or the percentage relationship of the prices among rate blocks. The rule requires that within 20 days after providing this notice to customers, DVEC may file its Streamlined Application to increase rates. A customer may file an objection or request for intervention to the Streamlined Application within 30 days of the date this notice is mailed to customers. Streamlined refers to the fact that such an application will be processed under a shorter time-frame than a rate increase application filed pursuant to A.A.C. R14-2-103 ("Rule 103") and, therefore, receive a less comprehensive (possibly less costly) review/analysis by Commission Staff than a Rule 103 review/analysis. DVEC's Streamlined Application may be approved without a formal evidentiary hearing. However, the Commission may at any time - at the request of Staff, an intervenor, or on its own - require DVEC's rate increase application to be processed pursuant to the more comprehensive Rule 103 requirements. You can view the entire Rule 103 and 107 at http://apps.azsos.gov/public services/Title 14/14-02.pdf.

Public Comment and Intervention

A person desiring to object to the Streamlined Application or to request intervention in the rate case must file the objection or the intervention request not later than the date specified below. Within 7 days after the deadline for objections and intervention requests, the Commission's Utilities Division Staff must determine the eligibility and sufficiency of the Streamlined Application under Rule 107.

Written public comments regarding DVEC-Gas Division's Streamlined Application, including objections to it being processed pursuant to the alternative Rule 107 streamlined requirements, may be submitted by mailing a letter referencing Docket No. G-02528A-20-0208 to the Commission's Consumer Services Section at 1200 W. Washington, Phoenix, Arizona 85007, or by electronic submission by going to the website: www.azcc.gov using the link "Make a Public Comment in a Docket" found in the "Cases and Open Meetings" tab. Anyone requiring assistance may contact the Consumer Services Section at (602) 542-4251 or (800) 222-7000.

Requests to intervene may be filed in Docket No. G-02528A-20-0208 by any person entitled by law to intervene or who is directly and substantially affected by the proceeding. For a form to use and instructions on how to electronically file, go to <u>http://azcc.gov/hearing/how-to-intervene-in-a-case</u>, or if you require assistance you may contact the Commission's Consumer Services Section during normal business hours at 602-542-4251 or 1-800-222-7000; or you may contact DVEC during normal business hours at 928-359-2503 or 800-669-2503. All motions to intervene and all objections to the streamlined Application must be filed on or before August 14, 2020.

The Rule 107 streamlined rate process is available to DVEC-Gas Division only if the Commission receives objections from less than 35 DVEC-Gas Division customers by August 14, 2020. If the Commission receives objections from at least 35 DVEC-Gas Division customers by August 14, 2020, DVEC-Electric Division will not be eligible to use the Rule 107 streamlined process, but will instead need to use the Rule 103 rate increase application process which would involve a formal evidentiary hearing and a more comprehensive review/analysis by Commission Staff.

How You Can View or Obtain a Copy of the Application and Other Filed Documents

A copy of the Streamlined Application is available for public inspection during regular business hours at DVEC's offices located at 379597 AZ 75, Duncan, Arizona 85534. A copy of the Streamlined Application is also available at DVEC's website (www.dvec.org). After July 21, 2020, a copy of the Streamlined Application will also be available for public inspection during regular business hours at the Commission's Docket Control Center at 1200 W. Washington Street, Phoenix, Arizona, 85007, in the Commission's Tucson Office at 400 W. Congress, Tucson, Arizona, 85701 and on the Internet via the Commission's website (www.azcc.gov) using the e-Docket function.
